Jamie Strong

Associate Director for Health and Ecology at US Environmental Protection Agency (EPA)
Silver Spring, Maryland, United States

Experience

US Environmental Protection Agency (EPA)

21 years 5 months

Associate Director for Health and Ecology, Office of Research and Development

February 2021 - Present (2 years 9 months)

Branch Chief, Office of Water

February 2015 - February 2021 (6 years 1 month)

Washington

Branch Chief, Office of Research and Development

March 2012 - February 2015 (3 years)

Washington D.C. Metro Area

Served as chief of the Toxic Effects Branch in the Integrated Risk Information System Division of the National Center for Environmental Assessment within EPA's Office of Research and Development. Directly supervise a staff of both junior and senior level multi-disciplinary, expert scientists.

Responsible for supervisory personnel management including oversight of all tasks, assignment of duties and prioritization of projects, evaluation of staff performance, and mentoring and career development. Also, serve as an expert in human health risk assessment and toxicology to the organization.

Team Leader (Toxicologist)

February 2007 - March 2012 (5 years 2 months)

Led a team of scientists in the Integrated Risk Information System (IRIS) Division of the National Center for Environmental Assessment within EPA's Office of Research and Development. Provided oversight of the planning, organization, management, and execution of the development of IRIS human health assessments by team members.

Assistant Center Director for Risk Analysis

December 2009 - August 2010 (9 months)

Supported senior leadership within the National Center for Environmental Assessment in EPA's Office of Research and Development. Specifically,

worked to ensure IRIS human health assessments met the most critical needs (i.e., pending regulatory actions or decisions) of EPA's Program and Regional offices and were performed in conjunction with other agencies, governments and/or EPA Program and Regional offices.

Staff Toxicologist

June 2002 - April 2008 (5 years 11 months)

Staff toxicologist responsible for the development of human health assessments for the in the Integrated Risk Information System (IRIS) Division of the National Center for Environmental Assessment within EPA's Office of Research and Development. Provided intensive analysis and interpretation of toxicological data for the derivation of qualitative and quantitative estimates of human health effects from environmental chemicals. In this role, implemented the most current methods and approaches to various scientific issues in human health assessment. Also, responsible for resolution on cross-cutting scientific issues both independently and working with a team of scientists.

White House Council on Environmental Quality

Deputy Associate Director for Chemical Regulations

August 2010 - April 2011 (9 months)

Coordinated Federal environmental efforts by working closely with Federal agencies and other White House offices in the development of environmental policy and initiatives.
