### Curricular Development

2018 – present      Pipeline Program to Promote Academic Diversity (**P<sup>3</sup>AD**) – three-year  
 academic enrichment and mentorship program for students and residents  
 designed to increase diversity of faculty at UConn Health and affiliate  
 institutions

2014 - 2016            MDelta curriculum – major curricular reform effort undertaken over a  
 two-year period using team based learning (TBL) as the primary pedagogy.  
 Specific contributions include:

Public Health Certificate – Proposed and led a team of faculty to successfully  
 integrate the content of four public health courses into the curriculum  
 of the School of Medicine to imbed a thread of content devoted to health  
 equity into the curriculum; and to provide the added qualification of a public  
 health certificate to all medical and dental students.

Teaching EMR (tEMR) – Developed three virtual families, proposed and led  
 the integration of an EMR (through collaboration with Indiana University  
 SoM) into the MDelta curriculum. tEMR and the virtual families are used to  
 present all basic science curriculum in the setting of a patient visit and the  
 context of the biopsychosocial model.

2011 – 2015            Career Development and Mentoring Program  
 Designed and implemented a three-year longitudinal career counseling and  
 mentoring program The curriculum emphasizes small group discussion to  
 provide continuity of support and mentorship across the first three years of  
 medical school.

2007-2010            Cultural Competence and Information Mastery  
 With support of a Title 7 HRSA grant led a small team to develop cultural

competency curriculum for the third-year family medicine clerkship and faculty development curriculum for community-based faculty.

2001-2007 Using Technology to teach patient-centered medicine  
With support of two Title 7 HRSA grants developed “*m-EMR- e*”, a virtual electronic medical record for medical education, used as the primary didactic teaching tool during the third-year family medicine clerkship at the University of Connecticut School of Medicine

### **Program Development**

2017 Minority (URiM) Faculty Development Pipeline Program  
The program offers URiM students at UConn SoM an eight- year combined undergraduate and graduate medical school experience that leads to a faculty position at the SoM. The eight-year educational experience enhances the traditional four-year medical school experience with an additional, funded enrichment year, and placement in a UConn SoM residency program.

2015 – Present Primary Care Loan Program (PCLP)  
PCLP offers loans of up to \$30,000 annually at a nominal interest rate of 1% to students to promote interest in pursuing a career in primary care
