Other examples include dozens of mini-grants by coalition partner organizations on one-year or shorter grant cycles, which have required significant attention to detail due to frequent application and reporting requirements.

 - o Developed and implemented a "business roundtable" campaign to host ten events in ten cities to engage more than 65 business leaders in conversations with NETWORK's Executive Director about the intersection of Catholic Social Teachings and economic justice. Each roundtable generated at least one lead for continued program engagement.
- Maintained an e-community of more than 40,000 people. Used a combination of mass emails, social media, direct mail, text messaging, and calling campaigns to:
 - o Conduct a demographic survey of NETWORK's membership, and use the data to enhance the relevance of communications to NETWORK members
 - o Develop and promote the NETWORK study guide on Pope Francis' *Joy of the Gospel* encyclical
 - o Evaluate the *Mind the Gap!* and *Mend the Gap!* popular education curricula on wealth inequality
 - o Participate in partnerships to promote health insurance open enrollment season
- Participated in the leadership team for the re-branding of the organization, including the development of an organizational writing style guide, crafting a shared "story arc" of the organization, and updating the organization's visual identity.
- Developed and maintained department workplan and budget of approximately \$150,000.
- Served on the hiring committees for three hires.
- Supervised community mobilizing work of a team of five
