

LOYCE PACE, MPH

(b)(6)

A visionary leader with over 20 years of experience in more than 15 countries driving health policy and partnerships, I build consensus across multiple sectors and stakeholders to solve big problems resulting in bold change. I demonstrate a healthy balance of business acumen, political savvy, and deep technical skills. I leverage intuition and expertise to gauge risks and returns for startup or turnaround ventures, maximizing creativity to overcome adversity. Particularly adept at crisis management and organizational change, I present strategic opportunities for new actors or investors to reimagine collective goals. Above all, I prioritize accountability, diplomacy, and humility in pursuit of equity, solidarity, and greater good.

Languages: English, French, Spanish; Regions: Africa, Central Europe, North America, Southeast Asia

EXPERIENCE

EXECUTIVE POSITIONS

2016 – PRESENT

PRESIDENT & EXECUTIVE DIRECTOR, GLOBAL HEALTH COUNCIL

- Lead coalition of 100 organizations, universities, and corporations with a combined annual revenue of over \$40 billion focused on delivering global health programs in more than 150 low- and middle-income countries
- Mobilize diverse network of grassroots stakeholders for global campaigns and events, including United Nations special sessions, World Bank meetings, World Health Assembly, and various multilateral donor pledge conferences
- Advocate for federal funding and policies that support U.S. health initiatives and partners abroad by hosting congressional delegations, submitting House or Senate testimony, and convening community meetings with administration leadership across multiple agencies
- Set vision and strategy for the organization and overall U.S. global health community, publishing biennial policy recommendations for Congress and a new vision for U.S. global health in the wake of COVID-19
- Tapped frequently by journalists and think tanks for an expert analysis of global health landscape and trends; appearances and outlets include BBC, CNN, Forbes, Lancet, MSNBC, NPR, and The Atlantic, in addition to regional events and publications
- Host major global health advocacy forums and roundtables with members of Congress, WHO leadership, and media representatives with a reach of 2,500 attendees per year and more than 150,000 media impressions per month
- Oversee executive management of core operational resources, including 25 staff and consultants as well as 15 working board members; reestablished the financial health of organization, clearing its negative assets within one year in this role to receive its first clean audit since our relaunch and building reserves totaling 25% of the annual budget; grew overall budget by 60% during 4-year tenure, doubling number of donors and staff

2011 – 2016

EXECUTIVE ADVISOR FOR PROGRAMS & POLICY, LIVESTRONG FOUNDATION

- Established organization's global health policy portfolio and presence, serving as its top representative with agency officials based in Geneva, Switzerland and Washington, DC
- Designed and led the organization's first international congressional delegation on global health; authored and delivered its first congressional testimony on U.S. foreign policy; secured first-ever role for organization as a speaker at United Nations General Assembly
- Liaised with patient advocacy coalitions to defend Affordable Care Act protections for cancer survivors domestically and advance access to care priorities globally; successfully included essential medicines as part of first international resolution on chronic diseases
- Developed strategy for patient-centered engagement in planning and execution of high-level initiatives such as Vice President Biden's Cancer Moonshot and Dell Medical School
- Harnessed resources from biomedical industry corporations and managed academic research grants totaling \$1.5 million to inform policy recommendations on innovative cancer care and technologies
- Represented team of 100 staff and thousands of national volunteers with donors, board members, and media for policy and advocacy updates

2006 – 2010

DIRECTOR OF REGIONAL PROGRAMS, AMERICAN CANCER SOCIETY (GLOBAL)

- Launched organization's flagship trainings and advocacy networks in Africa and Southeast Asia, covering 12 countries and representing half of our global footprint
- Recruited and managed more than 40 in-house and remote staff, consultants, and lead volunteers to conduct local research, facilitate trainings, and drive national advocacy or fundraising campaigns; designed multilingual, culturally relevant curricula and collateral
- Developed project budgets and proposals for corporate donors and targeted sub-grants totaling over \$1M per year; implemented first international review and disbursement mechanism for organization to maximize its global investment impact and minimize risk
- Served as primary representative in Washington, DC with global health advocacy organizations and policymakers, providing inroads for organization executives, board members, and patient representatives to engage in critical debates and decision-making

ADDITIONAL EXPERIENCE

2005 – 2006

INTERNATIONAL DEVELOPMENT FELLOW, CATHOLIC RELIEF SERVICES (GAMBIA)

Supported multimillion dollar projects in West Africa ranging from HIV/AIDS prevention to maternal and child health education, assisting annual evaluation, planning, and fundraising to document key outcomes and secure a grant renewal from USAID

2001 – 2004

HEALTH PROGRAMS MANAGER, AMERICAN CANCER SOCIETY (CALIFORNIA)

Recruited and supervised community health workforce of 75 volunteers across 3 cities in the Los Angeles area; led outreach and operations for an additional cohort of more than 100 education and mobilization volunteers supporting 5 local events that raised a total of \$500,000 from more than 1,000 participants

2000 – 2001

HEALTH POLICY RESEARCH ASSOCIATE, STANFORD UNIVERSITY

Reviewed data from partner studies to conduct meta-analyses and co-author publications

1999 – 2000

MEDICAL ENGLISH EDITOR & INSTRUCTOR, EHIME UNIVERSITY (JAPAN)

Tutored professors, researchers, and students in scientific writing and terminology for English language articles; a majority secured fellowships in Canada, United Kingdom, and United States

EDUCATION

JULY 2005

MASTER OF PUBLIC HEALTH (DELTA OMEGA), JOHNS HOPKINS UNIVERSITY

Studied biostatistics and epidemiology as well as behavioral science and health policy, with a focus on humanitarian assistance programs; presented thesis on health equity and human rights

JUNE 1999

BACHELOR OF ARTS IN HUMAN BIOLOGY (HONORS), STANFORD UNIVERSITY

Studied biological and social sciences with a focus on healthcare and reform; presented thesis on access to mental health services among cancer survivors; appointed student adviser and lecturer
